CARD of THANKS

Thank You

Perhaps you sang a lovely song,
Or sat quietly in a chair;
Perhaps you sent beautiful flowers,
If so, we saw them there.
Perhaps you sent or spoke kind words,
As any friend could say;
Perhaps you were not there at all –
Just thought of us that day.
Perhaps you prepared some tasty food,
Or maybe furnished a car;
Perhaps you rendered a service unseen,
Near at hand or from afar,
Whatever you did to console the heart,
We thank you so much, whatever the part,
The family of the late
S/Sgt. Jefferson D. Hamlet

I would like to thank my friends, neighbors and relatives for their kindness shown me while in the hospital and since my return home, also for the visits, phone calls, get well cards and flowers. Also thanks to Rev. R. B. Baber for his visits to the hospital Your kindness will always be remembered. 8-3-1p

I wish to take this opportunity to thank my many friends, relatives, and neighbors, for their many acts of kindness through visits, flowers, cards, and prayers shown me during my stay in the hospital and since my return home. May God bless each of you. J. H. Mayberry 8-3-1p

I wish to express my sincere thanks to my friends, neighbors and relatives for their kindness shown me during my stay in the hospital and since my return home. Your thoughtfulness will always be remembered. Mrs. Bernice Gilbert 8-3-1t

Transco Files For Authorization To Build $85 Million Plant

Transco Energy Company, a wholly owned subsidiary of Transcontinental Gas Pipe Line Corporation, today filed an application with the Federal Power Commission for authorization to construct a naphtha gasification plant in Pennsylvania at a cost of $85 million dollars.

The plant would be located in the Township of Upper Chichester a short distance west of the Delaware River and adjacent to the Sun Oil refinery complex at Marcus Hook. The plant would produce 250 million cubic feet of pipeline-quality gas a day by the reformation of naphtha from foreign and domestic sources.

Transco Energy proposes to sell the entire production to Transcontinental Gas Pipe Line Corporation, whose existing pipeline crosses the site. Transcontinental Gas filed a companion application for authorization to construct facilities to take the gas into its pipeline system.

5 Year Old Has Good Garden

Harold Rosevelt Tolley, Jr., five years old, is shown with a two and one-half pound tomato grown by him in his own garden at his home on Highland Avenue. Harold is the son of Mr. and Mrs. Harold R. Tolley, Sr., of Appomattox.

G. Montgomery Mitchell, president of Transcontinental Gas and chairman of Transco Energy Company, stated the application was an important first for Transco in its continuing efforts to ease the restrictions on deliveries to customer companies.

He said the nationwide energy shortage, and particularly natural gas, is rapidly becoming critical. "Gasification of naphtha is the quickest way to put more gas in the pipelines and is a particularly clean method of satisfying state and federal environmental policies," he said.

"For over a year we have not had sufficient natural gas in our areas to supply our customers' requirements. This plant, with no undue delays, should be producing gas in time to supplement our deliveries by the winter heating season of 1974-75," he sid.

Mitchell pointed out that natural gas is universally acknowledged to be the cleanest burning fuel in wide use, and that environmental authorities were urging greater use of gas, particularly in metropolitan areas.

"As one of the larger companies, in the natural gas industry, Transcontinental Gas is bending every effort to get as much gas to our customers as we can. We consider this plant a key part of our response to the nation's needs," Mitchell said.

Feedstock for the plant is scheduled to arrive by ships or barges to unload at Sun Oil piers and move a short distance by pipeline to the gasification facilities, reducing the need for new waterside construction to a minimum. The site has rail and highway access.

Flour Corporation has the contract to design the plant, which will produce gas using the Lurgi Gasynthan process, successfully used in more than 25 plants wide.

Transcontinental Gas Pipe Line Corporation owns and operates an interstate pipeline system for the trans portation and sale of natural gas. Its main pipeline system extends from the Texas and Louisiana Gulf Coast through the southeastern states to the Pennsylvania-New Jersey-New York metropolitan areas. Essentially all of its sales are to utility customers in eastern and southeastern states.
